

The VCS technology team and the high school media center have partnered to expedite and improve the 1:1 device delivery process for this year. Please remember that for your student to receive their device (or get their personal device connected to the WiFi) they must have completed the VHS registration process. Pick Up Information

- All 9th and 10th grade Chromebooks will be issued to students on the first day of school during homeroom. 9th and 10th grade students will **NOT** need to attend the scheduled tech days prior to the start of school.

- All 11th and 12th grade students will have the choice of using a VCS-issued Chromebook or bringing their own device (BYOD).
 - If a student opts for the VCS-issued device, the device is free and considered on loan from VCS. Devices should be picked up at one of tech days scheduled below.

 - If a student opts to bring their own device, they should attend one of the tech days in order to have that device connected to the WiFi by one of the IT specialists. This will provide students with optimal connectivity and data speeds throughout the building.

 - If a returning 11th or 12th grader previously had their BYOD device connected to the network and they are planning on using the same device, they do **NOT** have to attend one of the scheduled tech days as their device will maintain it's connectivity credentials from last year.

- We will be offering four different opportunities (open house format) for families to come to VHS to pick up their school issued devices, bring their own devices to connect to the school WiFi network, and/or meet with the Best Buy Geek Squad. The schedule below is not restrictive, but in order to alleviate heavy wait times, the provided days and times have been broken up by last name and a variety of morning and afternoon offerings. Students will enter through Door 4, make a left, and enter room BL 122.

Tech Days Schedule

Please enter through **Door 4**, make a left, and go into room Blue (BL) 122.
